

MUD DOG® 1000

10 YARD HYDRO EXCAVATOR

Redesigned

THE BEST KEEPS GETTING BETTER

Whether you're a seasoned contractor or new to the world of hydro excavation, you're sure to appreciate Super Products' redesigned Mud Dog 10-yard unit. The Mud Dog 1000 now offers improved air flow for superior performance, better fuel efficiency for noticeable cost savings, and a heated aluminum cabinet that provides easier access and increased storage capacity. And the Mud Dog is still the industry's only hydro vac to offer you the convenience of ejector plate debris unloading for fast, thorough unloading and washdowns.

A safe and effective alternative to traditional digging equipment, Super Products' redesigned Mud Dog 10-yard hydro excavator offers an 8' telescoping boom, wireless remote operation, water heating capability and many more outstanding performance and convenience features.

MUD DOG® 1000 SPECIFICATIONS

POWER SYSTEM

- Single engine drive
- Smart CANbus control system
- Engine and blower tachometer
- Emergency engine kill switch

WATER SYSTEM

- 14 GPM @ 3000 PSI (53 LPM @ 205 Bar) water pump, hydraulic drive with variable flow on remote
- Curbside water fill
- Water capacity: 1000 gallons (3785 L)
- Hose reel with 100 feet of ½" hose (30 m of 12.7 mm)
- Water heater capacity: 465000 Btu/Hr (136 KW) heater
- Winter recirculation
- Anti-freeze system
- Water pressure gauge
- Air purge system

VACUUM SYSTEM

- 8" (203.2 mm) positive displacement vacuum system offers 5800 cfm/28" Hg (9850 cmh/1 Bar)
- Industrial tapered cyclone externally-mounted with large 16" (406 mm) clean-out door
- Vacuum pump hour meter
- Vacuum level gauge
- Pleated final filter assembly

BOOM SYSTEM

- 8' (2.4 m) telescoping boom with 19' to 27' (5.8 m to 8.2 m) reach
- 335° boom rotation with heavy-duty rubber elbow
- Remote greasing system for boom

OPERATOR CONTROLS

- Hand-held wired pendant and wireless remote operates boom functions as well as vent door, kill switch, vacuum level, heater, water pump and dump controls

DEBRIS BODY

- 10 cu. yd. (7.6 m³) debris body
- Ejector unloading system
- 14" (356 mm) float ball
- Fully hydraulic tailgate operation
- Full diameter, full opening flat rear tailgate
- Stainless steel tailgate splash shield

STYLE / ACCESSORIES

- Aluminum cabinet heated by dual 65000 Btu/Hr (19 KW) heaters
- Cabinet interior is polyurethane coated for durability
- Urethane paint finish
- Stainless fenders
- LED light package includes front strobe, rear arrow stick, stop, turn signals and running lights
- Aluminum diamond-plate tool box 18" x 18" x 48" (.46 m x .46 m x 1.22 m)
