

LAP DOG NOT

The New Mud Dog 1600 Performs Like a Beast

Super Products' newest hydro excavator was specifically designed for easy, reliable and long-lasting operation in extreme environments. The Mud Dog® 1600 is the ideal hydro vac for contractors serving oil, gas, mining and other industries that present the harshest of work conditions.

- ◆ High-pressure, heated water breaks up frozen, stubborn material and flushes out tight spaces
- ◆ Rear-mounted boom offers 335° rotation and can pivot 25° downward to achieve even greater work area access and deeper digging capability
- ◆ Standard 1500 gallon water tank and 16 cubic yard debris body results in longer on-site operation and fewer trips to replenish water supply or unload debris
- ◆ Convenient debris body tilt feature – coupled with unique ejector plate technology – provides safe, fast and thorough unloading as well as easier tank washdowns

Super Products...Living up to our name.
